## Introduction

Geek Gatherings LLC is putting on two conferences simultaneously this October in Phoenix. Attendees may attend sessions of both conferences for the price of one! The two conferences will be held in the same conference center and will share meals and exhibitor space.

### **Southwest Fox**

The eleventh annual Southwest Fox Conference presents the latest in Microsoft Visual FoxPro development techniques and interoperability with other technologies. This highly acclaimed and popular conference is the perfect venue for VFP developers interested in learning more about VFP, further refining their software development skills, learning what options are available for moving forward, and being a better software craftsman.

### **Southwest Xbase++**

The third annual Southwest Xbase++ is the only North American conference for Xbase++ from Alaska Software. Southwest Xbase++ focuses on three major topics:

- Xbase++ 2.0 and the Arctica SQL technologies such as Unified SQL for PostgreSQL and Advantage, and Universal SQL for Arrays, Objects and your DBF Tables or ASCII files.
- Xbase++ 2.0 and the <CXP/> Web and Connected Mobile technology, to get your Xbase++ application to talk with your iPhone.
- Version 3.0: Project PolarFox, the Visual FoxPro successor and visual design environment for your existing Xbase++ application.

## Exhibitor Opportunities

Exhibiting at these conferences is a great way to get your products and services in front of potential customers. There's nothing like face-to-face contact, both at your booth and at social events, to help close the deal.

There are many benefits to exhibiting at these conferences:

- Take advantage of networking opportunities
- Raise brand and product awareness
- Establish profitable and long-term business relationships
- Generate leads and opportunities

The exhibit room is central to all breakout rooms and is the same room where all meals and breaks are served. A reception is held in the exhibit room after the key-note session on Thursday night. These give you plenty of traffic opportunities.

Exhibition spaces are limited and book up quickly. Don't miss this ideal opportunity to showcase your organization and its products and services to the cream of the Visual FoxPro and Xbase++ development communities.

In addition to a presence at the trade show, you'll have one or more 75-minute sessions in a dedicated room to show your products to potential customers. Also, some exhibitors in the past have held specialized training sessions or user group meetings at the conference center before or after the conferences, so you may wish to consider that as well.
